## OFFSHORE EDITION **SPORTCHASSIS**

For years, we have watched boating customers modify our trucks to suit their particular needs and we've been taking notes. This is not your standard Ranch Hauler designed for goosenecks and buckin' hay, our new "Offshore Edition" package comes pre-equipped with the upgrades boaters want. Now you can tailor a look that matches your boat with custom wheels and step surface. Our adjustable hitch allows for full height adjustment and the ability to use a ball or a pintle hitch directly from the frame rails.
